

POPULATION STATISTICS OF PUNJAB

(1971-2011)

Publication No – 947

ECONOMIC ADVISER, GOVERNMENT OF PUNJAB, CHANDIGARH

Website: www.esopb.gov.in

PREFACE

Economic & Statistical Organisation, Punjab has been compiling & disseminating statistical data on various socio-economic indicators of the state's economy which is of immense use for policy makers, Government & Non-government agencies and all those engaged in research and socio-economic analysis.

“The population statistics of Punjab” presents the entire spectrum of demographic, ethnic, social and economic characteristics of the population in the form of Tables and Charts to analyse the decadal changes. This publication brings in to focus composition of rural urban population totals, schedule caste population and details of some demographic characteristics namely sex ratio, including age group 0 - 6 years child population, literacy rate, density of population, work status etc. up to district level since 1971 to 2011 census.

Since inception of Punjab in 1966, new districts have been created from time to time. Now there are 22 districts. Wherever data for new districts was not available, it has been tried to make available data for new districts as well. For example, census department provided data according to 20 districts, that has been converted into 22 districts.

I appreciate the efforts made by the entire team of compilation section of the department under the supervision of Smt. Meena Rani, Research Officer who was guided by Sh. Harvinder Singh, Joint Director and Smt. Kuldeep Kaur, Joint Director.

Comments and suggestions for the improvement of this publication are welcome.

CHANDIGARH
